Top mattresses

Choose your type

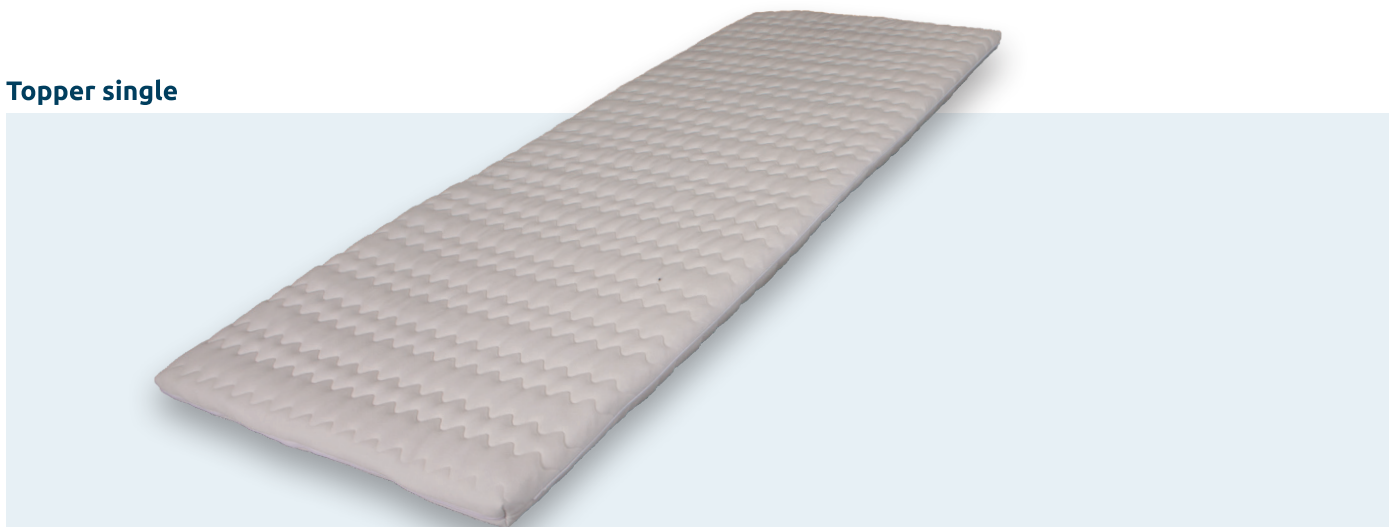

All our top mattresses are available in two types. You can choose between a single topper or a topper set. The single top mattresses are available in all imaginable sizes and can be used as both single and double mattresses.

A topper set consists of two single top mattresses that are connected by a detachable zipper. This is ideal if the beds of your guests might be separated.

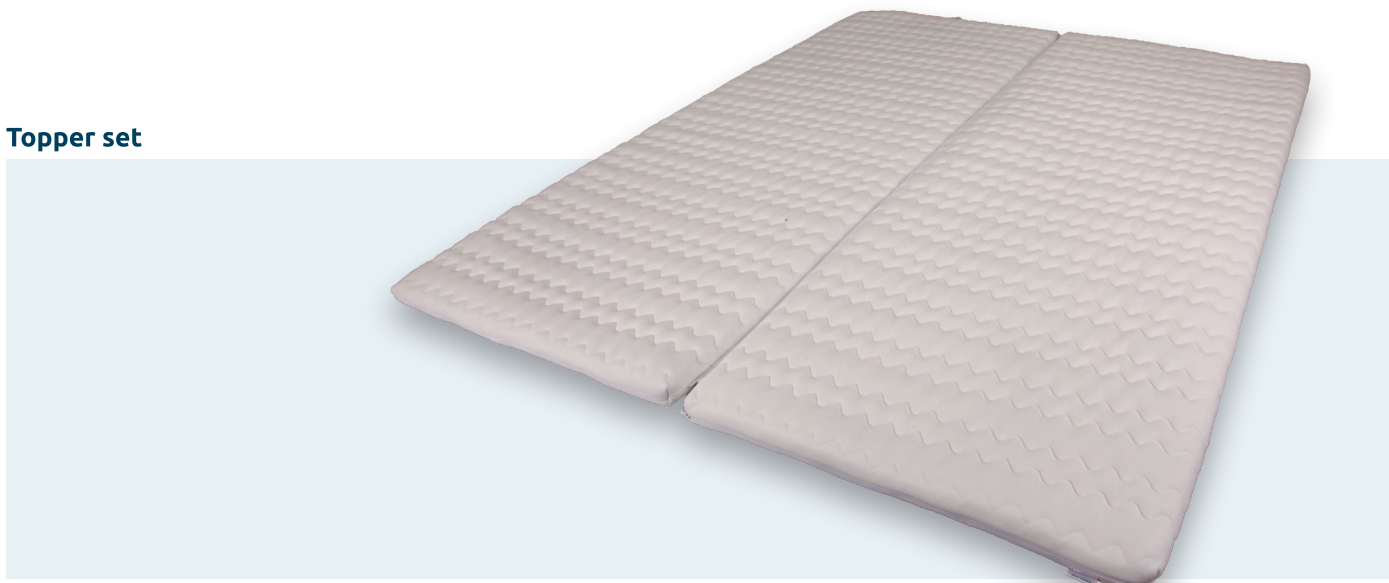

The top mattresses can then be used as individual mattresses.

When the beds are positioned together, the single top mattresses can be connected with the detachable zipper, forming a single unit. Due to the thinness of the top mattresses, your guests will not feel a seam in the middle.

- Provides good support
- Enhances comfort
- Very long lifespan
- Available in sizes 80 x 200 cm and 90 x 200 cm

Bed skirt and bed runner

Bed skirt

A bed skirt adds a stylish and polished look to any bed. It is commonly used in combination with a steel bed frame but can also be fitted to other types of bed frames. A bed skirt is attached to the edge of the bed base using Velcro and hovers just above the floor. The bottom of the bed skirt is weighted with lead cord, ensuring it always hangs neatly and straight. The major advantage of a bed skirt is that it completely conceals any suitcases or items stored under the bed. Our bed skirts are available in all imaginable upholstery and curtain fabrics from all leading brands.

Bed runner

A bed runner is placed at the foot of the bed and serves as a stylish finishing touch to the room. Additionally, a bed runner has a functional feature in that it protects the duvet cover when guests place their suitcases on the bed upon arrival or departure. It is even possible to design the bed runner with one side featuring a luxurious fabric and the other side made of a protective and easy-to-clean material. The side with the luxurious fabric can be used during the guests' stay, while the protective side can be used upon their arrival and departure. Optionally, the bed runner can be customized with your logo. A bed runner can be made in any desired size. Our bed runners are available in all imaginable upholstery and curtain fabrics from all leading brands.
